

# *A story about Openyoudao*

September 17, 2012

*I am a freshman*

*History 2012-04-16 A boring Day!!!*

---

I am linuxer, Reading paper just so boring, I can't bear it any more!!!

## *Why reading paper on linux just so difficult?*

## *Fuck! Writing a dictionary by myself*

---

2012-05-28 A new life born: Openyoudao v0.1

---

Openyoudao v0.1

## *the structure of openyoudao*

---

主程序  
def main()

取词  
def gettext ()

翻译  
def lookup()

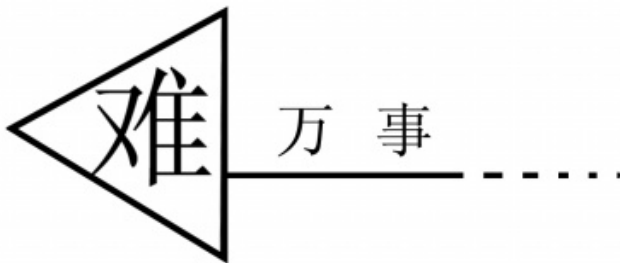

显示  
def webshow()

配置  
loadconfig()

*What should i do? if i want to complete this program?*

---

## *The question ask to my self*

---

- ▶ What should i do first?
- ▶ How to take the word that i want?
- ▶ How to translate it?
- ▶ How to show it?

# *The fun of programming*

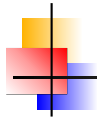

## *what I have learn in this process?*

---

- ▶ python
- ▶ git
- ▶ bash
- ▶ js/jquery
- ▶ sqlite
- ▶ pip
- ▶ file lock
- ▶ soft break

*To do Next...*

---

**Give me your suggestion...**

*what is opensource?*

---

## *How to Join Us?*
